Abstract

Quizziz is an educational application download that contains an online quiz and can be used in multiplayer. This application can be accessed via the web or can also be downloaded from the Play Store or Appstore on a smartphone. Its use is also very easy and practical. So it is possible to use it as a test, homework, or small quiz in the teaching and learning process. This research discusses about the implementation of Quizziz as a teaching media to facilitate students' learning vocabulary for Grade X at MA NU 1 Limpung in the academic years of 2022/2023. The study aims to determine : (1) This is to determine of using Quizziz Application on Teaching-Learning Vocabulary in students who have difficulty in learning.(2) This is to determine the effect of using Quizziz to motivate students in   the teaching-learning vocabulary. (3) To discover differences between students' after using Quizziz in learning vocabulary.The researchers utilized descriptive qualitative research methodologies in this study. The data obtained shows that Quizziz can motivate students' in the teaching learning vocabulary process.

Keywords : Quizziz, Digital Media, Vocabulary, MA NU 1 Limpung

INTRODUCTION

Vocabulary is language learning which can help someone in communicating with each other. Therefore, vocabulary is one of the elements that must be possessed by English language students. According to Soedjito et al., 2013: 13 when studying a language, a person's vocabulary refers to the number of words that they must know. In learning a language, of course, it cannot be separated from learning vocabulary mastery, which is very important to do, because it aims to make it easier for us to communicate between languages.

According to Tarigan (2003), the quantity and quality of a person's vocabulary greatly influence the quality of his communication skills. This means that the more vocabulary a person has, the better their communication will be. Therefore, vocabulary should be placed as the main aspect of language learning, especially in TEFL practice, where vocabulary mastery needs to be considered. The large amount of vocabulary that students have will help them in learning the four

main skills, which include listening, speaking, reading, and also trying to write. Also on the contrary, vocabulary expertise is a major factor in compiling sentences and communicating fluently. In addition, many people think that good English language skills have a very significant role in helping someone towards a better life.

The number of problems faced by students in school is a very important problem that teachers must know because it is very influential on the success of learning. The problems that make students learn less can be caused by several factors, such as health factors, social conditions, family or social conditions, and technology. Nabela (2020) said that most students in Indonesia still find it difficult to learn English, especially in learning vocabulary and grammar; they still feel passive, confused, and embarrassed, but what they often do is are afraid of making mistakes in the learning process, even though mistakes are things It is natural when we try to learn English, apart from being afraid of being wrong, many students find the teaching and learning process to be uninteresting.

In today's globalized world, the teacher's role is very influential in motivating students in the English learning process; not only that, but the role of the media given by the teacher is also very important. Seen from time to time, the media that is now often used is media that is engaged in technology. The rapid development of technology in this day and age is one of the factors that can affect a person's language development. One application that is often used for the English learning process is quizzes. A quiz is an educational application that can allow teachers and students to do in the learning process. Depending on the above explanations, the investigator decided to employ quizzis to help students acquire language. The researcher gave the title "The Use of Quizziz to Facilitate Students' Learning Vocabulary Mastery at the Tenth grade at MA NU 1 Limpung in the Academic Years of 2022/2023.

METHODOLOGY

This types of research uses Qualitative Research . Sugiyono stated (2018: 13), qualitative research is research focused on the philosophy of postpositivism and is often used to evaluate the state of a specific object in a natural setting, with the data produced being inductive or scientific findings of the study of a field data.

By using this qualitative research, the researcher aims to produce data obtained from the field. Then the data is presented with critical analysis and can produce conclusions regarding the use of Quizziz which can be used to facilitate students in learning vocabulary MA NU 1 Limpung, Batang Regency. The object of this research is the X-grade students of MA NU 1 Limpung . However, the researcher only took 1 class as a sample in this study. The instrument of the research are observation, Quissionnaire, and documentation.

RESULT AND DISCUSSION

The data of this research obtained from observation and Quisionnaire relates to the use of Quizziz for teaching learning vocabulary. There are the following explanations for each data :

1. **The teaching preparation using Quizziz**

The research was conducted by researchers on Wednesday, July 26, 2022, to be exact at. 08.20 AM before the research took place, there were several things that the researchers prepared so that their research using Quizziz ran smoothly
include:

a) Preparing a Lesson Plan

Here the lesson plan serves to provide a design of what material will be taught; here, the researcher chooses descriptive text as the material in his research. However, because here the researcher focuses on vocabulary, in the descriptive text, the researcher does not fully explain the material, the researcher only explains a few points in the descriptive text, such as understanding, social function, and language features. Because in this study, the researchers only wanted to focus on students' vocabulary skills, the researchers explained in more detail the point language features in the descriptive text, and it was stated that in the descriptive text, adjectives were widely used in the use of sentences in the text

b) Preparing the LCD

The LCD here is used to explain to students what Quizziz is and how to use it. The most important point in the process of preparing this research is to introduce Quizziz and how to use it. Because it turns out that many students do not know what Quizziz is because in

this school, there are not so many teachers who use Quizziz as an addition to learning media. The first thing to do is dodge Quizziz to students.

c*)   Preparing the Questionnaire*

Sheet The questionnaire aims to find out what students think after they know and use Quizziz as a medium for learning in English, especially in learning vocabulary.

d)   Preparing the camera

Here the camera is useful for documenting the teaching and learning process.

2. **The teaching implementation using Quizziz structured in the lesson plan The**

Implementation of the Quizziz implementation will be held on Friday, 29 July 2022, 07.00 – 08.20 AM. At this meeting, the researcher directly tested the students with the Quizziz, because, in the previous meeting, the researcher had delivered some of the material that the researcher tested through this Quizziz, and also at the previous meeting, the researcher had given an explanation about Quizziz and how to use it. So at this meeting, the researcher did not explain it again; in this core activity the researcher found out the extent to which students' understanding of the Vocabulary material had been conveyed at the previous meeting. Using this Quizziz media. Before entering this activity, the researcher checked the student's attendance first, then asked if all the students present in this class brought all cellphones/smartphones. If everything is considered ready, the researcher provides a link and also an access code for students so that they can enter this game/ Quizziz

3. **The teaching vocabulary using Quizziz affects students' learning process**

In order to determine the effectiveness of using Quizziz, the researcher used a questionnaire to determine student responses after they learned to use this media. The following are some of the questionnaires given by researchers to students:

Table 1

Question	What do you think after learning to use Quizziz? Can it help you in learning vocabulary? tell ?
Answer	*A :* After learning by using Quizziz I can know a lot of new vocabulary
	B : I enjoy learning by using Quizziz because it contains a variety of interesting features, besides that, there are also questions that are accompanied by pictures that make me feel helped in the process of working on a question
	C : I am very happy after learning using Quizziz, because Quizziz helps me in learning vocabulary, so I can add new vocabulary
	D : because I think Quizziz is one of the new learning media, which is fun and easy to understand. In addition, with Quizziz, I can find out new vocabulary
	E :Yes, because in Quizziz there are various interesting features, besides that, these features help me memorize
	F :Yes, it is very helpful, because with Quizziz I find it easier to catch new vocabulary
	G : Yes, I feel very helpful with new media like Quizziz, because it can make it easier for me to capture new vocabulary)
	H : with new media like Quizziz I feel very helpful in increasing my vocabulary)
	I : I feel more motivated, challenged, and easy to understand vocabulary

	J : learning vocabulary using Quizziz is very fun and makes it easier for me to remember new vocabulary, because Quizziz has a game-like appearance, so it is not boring and interesting)
Question	*do you have difficulty in learning by using Quizziz* ?
Answer	A :yes, there are some pictures in the problem that don't appear, maybe because the signal on my cellphone is difficult
	B: I haven't found any difficulties in learning by using Quizziz, moreover it's very easy to use, it's just that if you don't have a quota, you can't join the quiz)
	C : I don't have any difficulties
	D : Yes, I have a little difficulty, because I don't know in detail how to use Quizziz
	E *:* I didn't have any difficulties, but when I wanted to join the quiz, I had to have an adequate internet quota
	F : Yes, because I didn't have a quota, the signal was a bit difficult and made my cellphone slow)
	G : I'm not having any trouble
	H : Because my cellphone is slow, I'm having some problems, there are some displays in Quizziz that don't appear on my cellphone
	I : No

	J : I'm having a little trouble on my internet network
Question	Is this Quizziz one of the right media that you can use to increase your motivation in learning english, especially vocabulary
Answer	A: Yes. Besides having a good appearance, Quizziz is also easy to use B : Yes, because Quizziz is one of the media that has animation C : yes, because it can increase my motivation in learning English D : Yes, because it contains interesting features E : Yes, because Quizziz is one of the new learning media that has many interesting features, such as pictures and audio F : yes I feel very motivated in learning after getting to know Quizziz G : Yes , because learning and increasing vocabulary using Quizziz is very fun and interesting H : Yes, I think because Quizizz has features like games, which make me interested and motivated when learning using Quizziz I : yes, I feel more motivated and challenged in answering quiz in Quizziz J : Yes, because it is very easy to use, it makes me very motivated to continue learning by using Quizziz. Because with this Quizziz, I add a lot of new vocabulary that I didn't know before
Question	Do you feel enthusiastic when learning using Quizziz ?
Answer	A: yes, because learning with Quizziz I feel enthusiastic, because this is an experience that I have never done before

	B: Yes, because I feel that learning by using Quizziz is not boring and interesting, besides that I can see the score I get when doing the questions on the quiz, so I feel challenged
	C : Yes, I am very enthusiastic when learning using this media, because I think this media is one of the new media for me
	D : Yes, because this Quizziz media can be used anywhere and anytime Besides that, I can see the scores from the quizzes that I do, so I feel like I want to keep learning even harder to get the maximum score
	E : yes, because the media is not boring
	F : yes, because this is my first experience of learning using media that is almost similar to Games
	G : feel very enthusiastic, because it is very easy to use especially Quizziz has looks like when we are playing games
	H : yes, because when answering the questions on the quiz, Quizziz immediately shows the scores obtained, making me more challenged and wanting to keep trying
	I : I feel very enthusiastic
	J : I feel very enthusiastic, because the appearance made it very easy for me to understand the material that the teacher gave before, so it wasn't boring, plus the ranking display made me even more challenged and wanted to keep trying
Question	In learning vocabulary, among the learning media given by the previous teacher with Quizziz, which one do you prefer ?

Answer	
	A : I prefer to use Quizziz, because it has a very attractive appearance, besides that in Quizziz there are also images and audio that make me more happy when learning using this media
	B: I prefer learning by using Quizziz media, I find it easier to understand the material that the teacher provides
	C : I prefer learning by using Quizziz, because it is very interesting
	D : I enjoy learning vocabulary using Quizziz because I find it easier to understand the material, especially in adding vocabulary
	E : (I prefer to learn with Quizziz than using other media before, because Quizziz is an animated medium
	F : I prefer to learn vocabulary using Quizziz, because it doesn't need to be written, it's simpler, and it's easy to understand.
	G : I really enjoy learning with Quizziz, after being introduced to this Quizziz, I find it helpful in increasing my vocabulary
	H : I prefer to learn using Quizziz compared to the previous media, because its use is very easy and easy to understand
	I : I prefer with Quizziz because the media is very clear and the use is very easy
	J: I prefer this Quizziz media, because it is clearer, more interesting, makes it easy for me to understand the material

. Based on the results of the questionnaires from some of the students, it was found that many students felt helped by this Quizziz. They find it easier to add new vocabulary that previously they found it difficult to understand and catch the vocabulary that the teacher gave, but now that they know Quizziz, they find it easier in this regard. Moreover, Quizziz

has attractive features and displays such as images, audio, and video, making it easier for them to understand the material

CONCLUSION

Based on the results of research on "The Use of Quizziz to Facilitate Students' Teaching Learning Vocabulary at MA NU 1 Limpung " it can be concluded that:

First, there are several things that need to be prepared before the learning process using Quizziz takes place, such as preparing a Lesson Plan, preparing a laptop and cellphone with sufficient internet quota so that the learning process using Quizziz runs smoothly without any problems. Second, the use of Quizziz to facilitate students' teaching learning vocabulary is an innovation from the application of the use of technology-based learning media. Third, the use of Quizziz gives a lot of influence after implementation on a teaching-learning vocabulary because it is practical, easy to apply, can be used in class or outside class hours (used as homework), provide more time and space, helps students remember and add new vocabulary, provides interesting features, such as images, audio, and more. With this, students feel happier and enjoy when learning vocabulary using Quizziz.
